EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ramon Tabtiang on 3/29/07.

The application has been amended as follows:

Claims 4-7, 14-18, 38-49, and 67: Replace "A" with --The__ at the beginning of each claim.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest the methods claimed, as argued by applicant in previous responses. Claim 3 recites a concrete, tangible and useful result, as argued by applicants, and is statutory. Claims 4-7, 14-18, 38-47, 49, 50, and 67 depend directly or indirectly from claim 3 and are also statutory. Claim 61 recites a physical transformation of matter (producing a library of proteins). It is noted that applicants specifically stated on page 15 of the response filed 11/26/04 that "producing" is intended

to be a physical step of producing actual proteins, therefore claims 61 and 48 are statutory.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
